

## Technical Description

Intelligent EV charger: 5 times faster EV charging station, max charging speed of 22 kW / hour. Automatic identification single-phase and three-phase, standard charger: Charger type 2 complies with certification 62196-2, CE, TÜV, ROHS, Type B protection, and is compatible with almost all standard European vehicles

## Technical Data

	Metr. Units
Type	Type 2 charging gun 3 Phase 380 V (+/-10%)
Charging Power	32 A / 22 kW
Delay charging	0 - 9 hours
Screen	OLED
IP-Protection	IP65
RCD-Protection	Type A+D.C(6ma)
Cable length	5 m (6 m total)
Plug	Red CEE ( 32A)
Weight	6.0 kg
